Dear Sir:

In response to the "Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures," dated April 5, 2004, Applicants believe that the content of the Sequence Listing in the present application is identical to the Sequence Listing filed on November 20, 2001 in paper and electronic form in the parent application (Appl. No. 09/786,066, issued as U.S. Patent No. 6,653,076 on November 25, 2003). In accordance with 37 CFR §1.821(e), please use the computer readable form filed in that application on November 20, 2001, as the computer readable form for the present application.

A copy of the paper form of the Sequence Listing from the parent application 09/786,066 is enclosed for your convenience. The computer readable form of the Sequence Listing is identical to the paper form of the Sequence Listing provided herein. No new matter is believed to be added.

Further, please find enclosed a copy of the Preliminary Amendment (and copy of the Utility application transmittal and return receipt postcard) filed in the present application on November 25, 2003. The Preliminary Amendment was filed in order to incorporate the Sequence Identifiers from the Sequence Listing into the specification of the present application, as well as to correct minor typographical and grammatical errors.

Although no fee is believed to be due with this submission, the Commissioner is hereby authorized to charge any fee associated herewith to Deposit Account No. 20-1430.

Respectfully submitted,

Dated: 4 June 2004
